

FCC Compliance statement:

The Aircell ATG 4000 (Air-to-Ground) Transceiver is certified under 47 CFR Part 22 Subpart G with FCC ID: WPX-AHSI. The ATG 4000 has been evaluated for compliance with FCC OET Bulletin 65 (Evaluating Compliance with FCC Guidelines for Human Exposure to Radiofrequency Electromagnetic Fields). The ATG 4000 is to be installed by professional qualified personnel. The ATG 4000 is to be mounted in the fuselage of the aircraft with the antenna located outside the fuselage. Because the antenna mounting location is outside the fuselage, the 32 cm separation distance will be maintained between the antenna, passengers and crew.
